Newlywed – Not so Newlywed Game

Basic Rules of the Game:

- For the first round of the game, the husbands are taken off 'stage' and the wives are asked three questions. The husbands are brought back on 'stage' to answer the same questions before the wives answers are revealed. A matching answer is worth 5 points.
- The second round, played the same as the first, but the wives are taken off 'stage', while the husbands answer three different questions. The first two are worth 10 points, and the third 'bonus' question is worth 20 points.
- The highest score is 55 points, and the couple with the highest score wins.
- In the event of a tie, a tie-breaker question should be asked to either spouse.
